

Cllr Dave Jackson – October report

It has been a relatively quiet couple of weeks since the last delayed meeting a fortnight ago.

Following concerns raised by Cllr. Graham Cox, I have messaged Chris Grain (OCC HIGHWAYS) to ask if he could call to look at the stretch of Church Lane up from South Street past the mirror to number 18. The road is dotted with small potholes between previously filled holes, so the whole stretch is like a bumpy patchwork quilt. I am particularly concerned that children cycling from school tend to go at some speed along the road.

I have had no response from WODC about my request to sweep 5 roads liable to floods at half term. I will write again before the meeting to see if I get an update.

I have sent a message of thanks to the bridges team for the excellent job they have done fixing an extra "pole" on the footbridge by the ford in Mill Lane.
