

Cllr Dave Jackson report – April 2024

It has been rather quiet since I returned from holiday last month, when I had to miss the last meeting.

The bag of sand for sandbags was emptied when we had the horrendous rain a couple of weeks ago. I have ordered more sand to be delivered to the end of the Sports and Social car park. I still have dry sandbags in my garage, so I will take them up once the sand arrives. Last time the sand arrived quickly.

I have noticed some nasty potholes have again appeared within the area that I am allowed to mark and schedule action (i.e. in the speed limits except the main road). Church Lane is again a problem towards the school. Hopefully I can have a dry day when I am not too busy!

Unfortunately, I can't mark holes between the villages, but I will still report them on Fix My Street for the OCC highways officer to mark. A friend has mentioned the road to Holt before you get to Barton House, and I have spotted others in the Bartons ward, but not in S.B. parish, like beyond Sandford St Martin.
