

### **Councillor Dave Jackson report – March 2025**

It has been a fairly quiet month with little to report. Some of the potholes I marked on Kiddington Road and Kirby Close have been done, but others not touched! The white markings I did on February 14th are now barely visible!

I have been asked by a resident on Worton Road to help with a neighbouring hedge which needs lowering, and discussions are on-going.

I have contacted OCC highways officer Chris Grain again as the wobbly manhole cover outside 13 Marshall Crescent has still not been fixed. I have also written again to Bill Oddy to chase up a wheelie bin for the sandbags at the "depot" at the end of the Sports and Social Club car park. I had a message from Mary Thompson who coordinates the litter picking at the sports field that some hessian sandbags had been blown into the hedges. I have also noticed that even more plastic sandbags have arrived in a large plastic bag. I need to find out what is going on!!
