

Bulletin 14 County Councillor Andy Graham updates

### **Woodstock & Bladon**

Happy to walk the length of the A4095 with Bladon councillors to roughly plot the potential locations for a reducing speed scheme. Application to OCC needs to be made.

### **Parking Scheme Woodstock**

Final draft of the scheme to be presented to WODC and to Woodstock Town Council shortly and followed by public consultation. With goodwill and determination to resolve the parking issues and the positive contributions from residents, businesses, councillors and especially county officers, a real solution is in sight.

### **New health Centre back on the table**

Discussions continue with key stakeholders to resolve the health needs of residents with focus on the Hensington Road site. The viability of the site will be focussed before proceeding to the next stages. County councillors in neighbouring areas have been consulted as has the Oxfordshire Clinical Commissioning Group so as we are aware of the health provision elsewhere. More news in future bulletins but thanks to the district councillors Elizabeth Poskitt and Julian Cooper for their work to date.

### **The Oxfordshire Museum**

An excellent exhibition is currently on which is attracting a lot of attention and visits. A 3 yr old and her parent showed me their favourite exhibit (a white cat) and the mechanical puppetry with lots of buttons to press shows ingenious creativity. Take the children along or tag along anyway. This is a Woodstock treat!

### **Save the Children Fundraising Event**

Great to see this annual event up and running again supported by the many volunteers including town councillor Cllrs: Ann Grant, Elizabeth Poskitt and Julian Cooper.

### **Tackley**

Twynhams Road awaiting costing before proceeding with a plan to get the deteriorating road repaired. Have written to all residents to keep in touch.
